

## ACS Lectureship Meeting To Hear Dr. W. A. Noyes, Jr.

**Oak Ridge Session Set Wednesday, Nov. 19; Group Will Honor Lind**

Dr. W. Albert Noyes, Jr., dean of the graduate school of the University of Rochester and one of the nation's leading scientists, will be the principal speaker for the annual lectureship meetings of the East Tennessee Section of the American Chemical Society next week at Oak Ridge and Knoxville. The Oak Ridge meeting is scheduled for 8 o'clock Wednesday night, November 19, at the Jefferson Junior High School, while the Knoxville meeting will be held the previous night at the same hour at Dabney Hall, University of Tennessee.

### Has Held Many Posts

Dr. Noyes has held many academic, professional and governmental posts and won many honors in his field. He follows such well-known speakers as Edwin Mack, Linus Pauling, H. H. Willard and I. M. Kolthoff to the lectureship program of the ACS.

Dr. Noyes and his father are the only father and son combination ever to hold the office of President of the American Chemical Society.

In addition to hearing Dr. Noyes, the East Tennessee Chapter of the ACS will honor Dr. S. C. Lind, consultant to Clark E. Center, general manager of Carbide units in Oak Ridge and Paducah, Ky. Dr. Lind recently received the Priestly Award, highest tribute possible for an American Chemist, at the national ACS meeting in Atlantic City, N. J.

### Dr. Lind To Be Honored

Dr. Lind will be honored at the Oak Ridge dinner at 6:45 p. m. at the Oak Terrace preceding the lectureship meeting.

Dr. Noyes will speak on "Some Free Radical Reactions" at the Oak Ridge meeting. At the Knoxville meeting his topic will be "Fluorescent and Its Relationship to Photo-Chemical Problems."

Many ACS members in Y-12 are planning to attend one or both of the lectureship meetings next week. Those desiring reservations to the dinner next Wednesday night at the Oak Terrace are asked to make them before noon on Friday, November 14, from A. B. Meservy, K-25, telephone 8793.

## Red Cross To Open Course In Home Nursing Wednesday

A trainers' course for instructors in home nursing will be offered to all inactive nurses and teachers within the next few days by the Oak Ridge Chapter of the American Red Cross. The home nursing program is a vital phase in the civil defense program of the city.

The classes will be conducted on November 12, 13, 14, 17 and 18 and all persons interested in the course are asked to communicate with the Red Cross Chapter on the Oak Ridge Turnpike, telephone 5-5641. Miss Mary Williams, southeastern field representative of the Red Cross from Atlanta, Ga., will conduct the classes.

Dr. W. A. Noyes, Jr.

## Capt. C. M. Jaco Set For Rocket Address

Capt. Charles M. Jaco, United States Army Ordnance Corps, from Redstone Arsenal, Huntsville, Ala., will speak at the joint meeting of the Oak Ridge Branch of the East Tennessee Section of the American Society of Mechanical Engineers and the East Tennessee Rocket Society set for Thursday night, November 20. The session will be a dinner meeting to be held in the Starlight Room of the Oak Terrace, starting at 6:30 p. m.

Captain Jaco is project officer for the Rohm and Haas Co. at the Redstone Arsenal. He is connected with the work being done there in research and development of solid propellants. He will speak on rocket propulsion development.

Y-12ers desiring to attend the interesting meeting and dinner are asked to make reservations before 4 p. m. next Wednesday, November 19. They may be obtained from W. R. Gall, Y-12 plant telephone 7677. He suggests that the reservations be made early as a capacity audience is expected.

## Physics Seminar To Hear Purdue University Speaker

Dr. Rols M. Stessen, of Purdue University, Lafayette, Ind., will speak at the meeting of the Oak Ridge Physics Seminar on Friday afternoon, November 14. Y-12ers and others attending the session have been notified that the time and place of the meeting have been changed this week with the session set for 4 p. m. in the East Lounge of the Ridge Recreation Hall. Dr. Stessen's topic will be "Influence of Chemical Binding and Phase on Gamma-Gamma Directional Correlations."

## Dr. G. O. Curme Given Honor By Fraternity

Another honor came recently to Dr. George O. Curme, Jr., Research Vice President of Union Carbide and Carbon Corporation, this time from Phi Lambda Upsilon, national honorary chemical fraternity. Dr. Curme, long recognized as an outstanding figure in the field of chemistry, was inducted into honorary membership in the society. He was scheduled to be initiated at a meeting in Atlantic City, N. J., but since he was unable to attend, he received the award at a private ceremony in his office in New York instead.

Dr. Curme's internationally acclaimed accomplishments in chemistry already have earned him almost every award available to members of his profession. His early fundamental research was a major factor in the development of the commercial production of synthetic aliphatic chemicals, a field of chemistry that now has grown into a major American industry. His work in the field of aromatic chemistry contributed in an important way to the development of the Corporation's widely publicized coal-hydrogenation process. Dr. Curme is a Director as well as Vice President of Union Carbide and Carbon Corporation.

Dr. George O. Curme, Jr.

## Education Changes Should Be Recorded

All employees who have increased their formal education since coming to Y-12 are urged to be sure that records of their achievements are included in their personnel folders. These records should include all hours of credit granted, diplomas, certificates or other formal recognition given for studies completed through post graduate collegiate courses, university extension courses, correspondence courses and other related training. Originals or certified copies of the records should be submitted.

The records of such advancement in education should be on file both with the immediate supervision of the employee and also with the Personnel Records Section of the Personnel Division, North Portal. These records should be kept up to date with all changes of status being recorded.

## Mineralogists To Elect, Hear Talk On Arkansas

John Trotter, of the Biology Division of Oak Ridge National Laboratory in Y-12, will speak at a meeting of the Mineralogy Society at its monthly meeting to be held tonight, Wednesday, November 12. The meeting will be held at 8 p. m. in the Oak Ridge Institute of Nuclear Studies Building on Administration Road. Trotter is from the University of Arkansas where he taught biology and allied sciences. His subject will be the 85 mineral species found in Magnetic Cove, Ark.

All members of the society are urged to attend the meeting tonight, as officers for the coming year will be elected.

## Y-12ers Build Homes Of Own; Do Most Work

The Oak Ridge housing shortage poses no problems for a number of Y-12ers who have acquired comfortable homes of their own—many personally constructed by the plant employees themselves—in commuting distance of the Atomic City. Two of these Y-12ers are fellow employees in the Maintenance Shops Department—W. H. Donahue and H. M. Jenkins, both old timers in the plant who have the satisfaction of owning attractive little homes that they practically entirely constructed themselves in the Powell community of Knox County.

### Both On Same Road

Donahue and Jenkins are close friends, the former coming to work in Y-12 on September 7, 1943, and the latter two months later in November of the same year. The idea of owning their own homes blossomed during their early

**REALLY "HOME MADE" ARE THESE TWO ATTRACTIVE HOMES OF Y-12ERS LIVING in the Powell community. At left is the home of W. H. Donahue while at right is the H. M. Jenkins residence. Both of these employees did the great majority of the construction work themselves on these homes.**

## Rule On Misuse Of U. S. Property Cited For Y-12ers

**Practice Is Prohibited; Violation Could Bring Serious Consequences**

All materials, supplies, tools and equipment of any kind used in the Y-12 plant area are the property of the United States Government and their misuse or removal from the plant area is strictly prohibited by both Company directives and federal law. Violations of these regulations have been reported at different times and Y-12ers are again reminded that such violations can result in serious consequences to the responsible person or persons.

### Company Held Accountable

Under the Company's contract with the Atomic Energy Commission for the operation of the Oak Ridge atomic installations, Carbide and Carbon Chemicals Company is charged with the responsibility of seeing that all of the property and equipment provided by the AEC is used for the purpose for which it was obtained. A complete inventory is maintained by the Property Department of all property and equipment and the Company is held accountable by the government for this property.

It is to insure the accuracy of the inventories and accountability to the government that the Company has issued its directive against the misuse or removal of any government property or equipment from the plant area. The "borrowing" of equipment for personal use and removal of materials "thought" to be surplus or scrap is also considered misuse of government property.

### Department Set Up For Sales

Y-12ers are reminded that the Surplus Property Sales Department has been set up to provide an outlet for disposal of surplus or unserviceable materials and equipment and that any such property is desired it can be purchased through that department.

Not only do employees subject themselves to immediate termination for violation of the regulations covering misuse or removal of government property from the plant area but federal laws are also specific on the subject of theft of government property.

### Federal Law Is Specific

Title 18, of the United States Code, Section 641, states:

"Whoever embezzles, steals, purloins or knowingly converts to his use or the use of another, or without authority, sells, conveys or disposes of any record, voucher, money or thing of value of the United States or of any department

## Promotions Go To Four More In Maintenance

Four Y-12ers in the Field Maintenance Department of the Maintenance Division are selected for the 15th series of sketches and pictures of employees earning promotions since July 1, 1951.

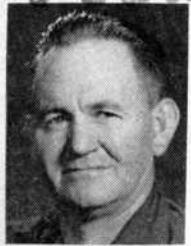

**W. R. Carver**—Carver came to work in Y-12 on July 3, 1948, and was promoted from millwright group leader to assistant foreman on July 1, 1951. He was married on November 20, 1937 and he and his wife, Mrs. Magia Carver, have four children, Carolyn, Gary, Patricia and Michael. They live at 121 North Purdue Ave., Oak Ridge.

W. R. Carver H. C. Gardner

**H. C. Gardner**—A Y-12er since October 3, 1944, Gardner was promoted to assistant foreman from insulator on October 1, 1952. Married on December 23, 1928, Gardner and his wife, Mrs. Alta Gardner, have two children, Ronald Eugene, 18, and Carolyn Sue, 9. They live at 136 Lawton Road, Oak Ridge.

**Samuel S. Gray**—Another old timer in Y-12, Gray came to work on February 22, 1944 and on October 1, 1951, was promoted from pipe fitter to assistant foreman. He and his wife, Mrs. Nonnie Dean Gray, were married in 1921 and they live at 114 Warren Lane, Oak Ridge. They have four children, Margie, James B., Melfa and Alwayne.

S. S. Gray E. L. Pickard

**Ernest Lee Pickard**—Employed in Y-12 on October 18, 1944, Pickard also was promoted from pipe fitter to assistant foreman on October 15, 1952. He and his wife, Mrs. Marie Pickard, whom he married in 1949, have three children, Larry, Ernest and Billie. They live at 105 South Purdue Ave., Oak Ridge.

Congratulations to—  
William P. Bonner, Analytical Laboratory, who became father of a boy born November 1.

**WOMEN EMPLOYEES IN THE PERSONNEL DIVISION AT THE NORTH PORTAL** entertained two of the division's brides-elect on Monday night, November 3, with a shower held at Loy's Restaurant, Knoxville. In front row, from left, are Betty Jo Butler, Desma Hutcheson, Esther Moody, Meta Butler, Judy Simmons and Winnie Miller, the two honorees; and Jo Potts. In the rear are Edna Kennedy, Virginia Phillips, Lucille Whitman, Madeline Edmondson, Helen Ross, Sue Wassom, Marguerite Collins, Ada Hopkins and Norma Harter.

Nothing is as highly valued by an overseas serviceman as a letter from home—and a Christmas present—Oh Boy!! It won't be long now, either—the postoffice people have issued their annual suggestion to "mail early" and that, applying to packages for servicemen overseas, means not later than November 15. So how about us Y-12ers who have relatives or friends in uniform on duty in foreign lands be sure and meet that deadline—we just can't let 'em down.

Don't forget that idea presented in The Bulletin last week about using its mailing list of former Y-12ers in service as a guide for sending letters—or gifts—whether the fellows be in the United States or on foreign duty.

The Uranium Control and Computing Department welcomes all their sick folks back to work after their various illnesses—the list includes **Bea Cameron**, **Loretta McBee** and **Jeanette Dake** . . . **Pam Starnes** went over to Hickory, N. C., last week to be an attendant in her sister's wedding which took place there last Saturday . . . **C. L. Pigott's** mother, Mrs. Carrie Pigott, has returned to Oak Ridge after visiting other sons and daughters in Portland, Ore., and in Inglewood, Cal., for several weeks . . . **Betty Brown** is vacationing this week at home in Lenoir City—her husband, Edward, is home from the Navy on a 15-day leave after which he will leave for Balboa in the Canal Zone for a two-year hitch . . . **Flo Coefield** took advantage of the off Saturday to visit her folks in Birmingham, Ala. . . **Virginia Swanner** spent the week end with her parents in Athens, Ala. . . **Betty Green** visited her Alma Mater, Western Kentucky State College in Bowling Green, Ky., over the week end . . .

**Ab Monger**, of Planning and Estimating, vacationed at home in Knoxville last week.

**Capt. LeRoy Dickenson**, of the Guard Department, and his wife spent last week's vacation on their pecan farm in Georgia; and in Florida. (We're hoping he will send nuts to us).

**Lucia Padgett**, of Stores, is on vacation this week . . . The department extends get-well wishes to **Eva Russell**, who is ill at her home in Whitesburg . . . Get-well wishes also go to **J. R. Bayless**, who remains ill at his home . . . The department welcomes **Margaret Anderson** to the group . . . Get-well wishes are extended to **Ann McKnight's** husband, who is a patient in Fort Sanders Hospital in Knoxville.

**Kenneth Brown**, of Tools, took time off from his daily chores last week for a leisurely vacation at home in Knoxville.

Our esteemed contemporary publication, the *Branched Chain*, official magazine of the East Tennessee Section of the American Chemical Society, is noted at times for its jokes. Here's one in the

current edition—

The bride was displaying her wedding gifts. When she came to one from the groom's army buddy she gushed:

"I just adore personalized gifts. We received towels with HIS and HER'S on them but this is even more personal."

Then she blushed bridelike as she displayed an olive drab blanket with the letters stamped in the middle—US.

**Dean Reed**, of Health Physics, is vacationing at home in Oak Ridge this week . . . **Mary Brown's** husband flew in to Knoxville from California last week after his discharge from the Navy . . . The department welcomes **Cleo Sideris** to the roster . . . **Gladys Dodson** and her family visited relatives in Sparta over the week end . . . **Mary Lou Wilson** and her husband, Bill, a K-25er, visited his parents in Cleveland, Tenn., over the week end.

**Helen Ross**, of Wage Standards, and her husband, J. P., of Electrical Maintenance, are vacationing this week.

**Elmore Koons**, of Field Maintenance, and his wife, Mavis, of the Operations Division, started off their week's vacation by seeing the Chattanooga-Alabama football game in Tuscaloosa, Ala., last Saturday—then on to Florida where they will end up the week by seeing the clash between Tampa University and Chattanooga this Saturday. Of course, **Sonny Bill Koons**, a former Y-12er and Oak Ridge High School grid star is playing with the Chattanoogaogs.

**Dee Asbury**, of Property, and her husband, E. J., of Engineering, had as guests last week end Dee's sister and brother-in-law, Maj. and Mrs. William Naugher, their family and Lieut. Andrew

**Bolcar**, from Fort Bragg, N. C. . . . Hearty congratulations are extended to **George Easley** and **Juanita Henderson**, Assay Laboratory, who were married at Juanita's home at 421 Jefferson Ave., Oak Ridge, November 5—after a short honeymoon the couple will live at Wadsworth Circle, Oak Ridge.

**Bobbie Jean Jesse**, of Technical Records, visited her husband, Don, at Fort Jackson, S. C., over the week end.

**S. F. Thomas**, of Property Sales, is spending a two-week vacation at home in Oliver Springs.

**Betty Jo Cochran**, of the Alloy Department, is visiting in New Orleans, La., and in Houston, Tex., while on vacation this week . . . **Lois Barnes** vacationed in Oak Ridge last week.

Congratulations are extended to **K. O. Johnsson**, of the Materials Chemistry Division, who is the proud papa of a baby boy born November 1, at the Oak Ridge Hospital . . . The division welcomes **Dr. F. A. Schimmel** to the roster . . . We hear that **Julian Didlake** is really for the Chevrolets—he thinks everybody ought to have one.

**J. F. Carpenter**, of Safety, has been ill and in a hospital in Richmond, Va., recently—the department hopes he will be well and able to return to work this week.

By the time this edition of The Bulletin reaches you customers, our colyum conductor, **Miss Esther Moody**, probably will be jiving in the jambalaya country 'way down in New Orleans. Her parting request before departing vacation-ward last Friday (fervently echoed by the editor) is that all of you efficient, productive and eminent reporters give your usual generous cooperation to **Ada Hopkins**, a neighboring aide from up Employment way, who will sit in on the job this week.

**Remember—Only you can PREVENT FOREST FIRES!**

**Y-12ERS AND MEMBERS OF THEIR FAMILIES APPEARING** with the Oak Ridge Symphony Orchestra in its first concert of the season last week are shown above. Front row, from left, Mrs. K. C. Atwood, percussion; Mrs. William Adcock, oboe; Mrs. Fred Howard, viola; Miss Frances DiCarlo, viola; Miss Joan Luce, daughter of J. S. Luce, violin. In rear are Paul Tausche, clarinet; Dr. Waldo Cohn, conductor; and Donald Zucker, French horn.

## Fight For Span Led By Y-12er

**Edgemore Bridge Shut; Reopening Is Sought**

The many Y-12 motorists who had used the Edgemore Road and bridge approach to Oak Ridge prior to the span being closed to traffic last week have been invited to attend a mass meeting of persons interested in maintaining the route set for 7:30 o'clock tomorrow night, Thursday, November 13. The session will be held at the Claxton School, corner of the Knoxville-Clinton Road and the Edgemore Road, according to W. L. Coggins, of the Y-12 Property Sales Department, who has called the meeting.

Coggins said Monday he expects about 1,000 persons to attend the session, when a final draft of a petition will be prepared asking Anderson County officials to open the Edgemore bridge for light traffic and begin making plans for a new span to replace the old single lane structure. More than 2,000 signatures already have been obtained on the petition, Coggins said.

A group of residents along the Edgemore Road inspected the condemned span Sunday, Coggins said, and found it "in no worse condition than it has been for five years." The Y-12er said the county will be asked to remove the barrier welded on the bridge last week, make needed minor repairs and allow passenger automobiles to use the span. A request that an officer be placed at the bridge to prevent trucks using the span also will be made.

A survey has shown that more than 4,000 vehicles have been using the Edgemore Road and bridge every 24 hours, about 250 of them Y-12ers traveling to and from the plant to points from northern Knox County and Anderson County.

Alternate routes for traffic from Knox County are from the Clinton Road across Schaad Road or Emory Road to the Oak Ridge (Solway) Highway or all the way to Clinton and then via the recently rebuilt State Highway No. 61.

## Rule Against Misuse Of Property Is Cited

Continued from Page 1

ment or agency thereof, or any property made or being made under contract for the United States or any department or agency thereof; or

"Whoever receives, conceals or retains the same with intent to convert it to his use or gain, knowing it to have been embezzled, stolen, purloined or converted—

"Shall be fined not more than \$10,000 or imprisoned not more than 10 years, or both; but if the value of such property does not exceed the sum of \$100, he shall be fined not more than \$1,000 or imprisoned not more than one year, or both."

The following Y-12 employees were patients in the Oak Ridge Hospital last week: **William Z. Trimble**, **Victor M. Fowler**, **Robert Mason**, **Wilma L. Adkins**, **Milton M. Dickens**, **Samuel L. Downing** and **Beeler V. Taylor**, all of Uranium Processing; **Pearl J. Powers**, Analytical Laboratory; **Nicholas J. Tronolove**, Engineering; **Mark T. Johnston**, Field Maintenance; **Maynard L. Lay**, Utilities Maintenance; **Addie C. Borum** and **Martha H. Ray**, Product Processing.

# Y-12 Pistoleers Open Loop Fire

Season Opens Tonight; High Scores Reported

After finishing in second place last summer in the Oak Ridge Pistol League, Y-12's strong team will begin competition in the winter season of the circuit at 7 o'clock tonight, Wednesday, November 12. The teams will fire over the indoor range of the Oak Ridge Sportsmen's Association on the Turnpike west of the city limits. Team Candidates Sought

Y-12ers desiring to compete for positions on the team are urged to come out to the range tonight and every night during the 15 weeks of the league schedule. Pistols, targets and ammunition are furnished team members. Any number of squad members may fire for record with the five best scores counted for team results. Handicaps are based on the ability of the individual, which gives everyone an equal chance.

Teams competing in the winter season of the league are Y-12, Oak Ridge National Laboratory, K-25, Oak Ridge Police, Atomic Energy Commission and the Independents. Bair Leads Summer Shooters

During the summer season three Y-12 pistoleers posted league-leading scores. J. K. Bair had the top scratch score of the season with a 281 out of a possible 300 points. Bair also had the top scratch average of the season with 277. M. E. LaVerne had the second best scratch average in the league with 266.886 and J. D. King-ton was third with 268.166.

The Y-12 summer team and the high scorers are to receive trophies for their accomplishments.

## Rusty Five Victory Pushed By Peckman

Paddy Peckman's pin pounding for the Rusty Five last week marked the alley activities of the C League of plant keglers as the big southpaw swept the board in individual scoring, including two seasonal high marks, boosted his own average for the season by four pins and greatly aided his teammates in their whitewashing of the Uranium Control Junior Varsity for four points. Meanwhile, the Hooks kept right on the heels of the Rusty Five in the league standings by burying the Moles further into the cellar with a four point win. The Eutectics took the Angstroms for three and the Guards stung the Hornets by the same margin.

Peckman's individual scores were 202, 231, 583 and 670, the series scores being best for the season. With this boost the Rusty Five had top scratch team scores of the night with a 789 game and 2253 series. The Eutectics had the best handicap marks with a 1014 game and 2873 series.

Schierbaum, Guards, held his Big Five average lead although dropping one pin to 166 as Peckman advanced from third to second place with 163. Bowles, Rusty Five, was next with 160; Ratjen, a teammate, followed with 157; and Galloway, Hooks, was fifth with 156.

League standing follows:

| Team       | W  | L  |
|------------|----|----|
| Rusty Five | 27 | 9  |
| Hooks      | 26 | 10 |
| Hornets    | 22 | 14 |
| UCJV       | 20 | 16 |
| Eutectics  | 19 | 17 |
| Angstroms  | 11 | 25 |
| Guards     | 13 | 23 |
| Moles      | 6  | 30 |

## Varsity Bowlers Whitewash WATO

The Y-12 varsity bowlers mauled the WATO keglers for four points in the Oak Ridge City League on Monday night, November 3, to maintain their lead in the circuit. The Y-12ers posted 839, 836, 899

# Y-12 SPORTS NEWS

## Brewer, Hall Each Win Two First Prizes In Fishing Rodeo; Weather Slows Anglers

George Brewer and D. L. Hall, both of the Maintenance Shops Department, divided first honors in the Y-12 Fishing Rodeo that closed on Monday, November 3. Each had two first prize winners. Elmer Green, of Buildings and Grounds, however, took three prizes, one first, one second and one third, in the contest that was somewhat harassed by bad fishing weather during the two weeks of its existence. All winners have been requested to communicate with the Recreation Office, North Portal, and select merchandise prizes.

Hall caught the biggest largemouth bass and biggest fish of all during the rodeo, a four pound, nine ounce lunker. His other first place fish was a one pound, one ounce crappie. Brewer won his first prizes with a two pound, two ounce smallmouth bass and a two pound, seven ounce walleye pike.

Green reported a one pound, five ounce sauger pike for first place in that specie. His two pound walleye was second and a one pound, 10 ounce smallmouth was good enough for third place.

Other winners were:

Smallmouth — I. L. Kinsburg, two pounds, one ounce, second; no third place.

Largemouth—R. Hooper, three pounds, eight ounces, second; no third place.

Striped Bass—Charley Butler, one pound, five and one-half ounces, first; no second or third place.

Walleye Pike—C. E. Bolyard, one pound, seven ounces, third.

Sauger Pike — Ed Owings, 15 ounces, second; no third place.

Crappie — A. H. Kimsey, one pound, seven ounces, second; no third place.

Bream — Elmore Koons, eight ounces, first; Evan Means, seven ounces, second; no third place.

## Whitewash Victories Mark All E Matches

Whitewash wins were scored by all of the victorious teams in the E League of plant keglers last week and a pair of second division teams managed to make substantial jumps up the ladder as a result of their triumphs. The 66s climbed out of the cellar by slashing the Cut Ups and the Easy Aces jumped from sixth to third place by trimming the Pin Wobblers. The loop leading Peglers pounded the No Pins and the Hobslurps humbled the Stinkers in the other engagements.

Easy Aces players dominated the individual scoring as Schierbaum posted a 215 scratch game and 567 scratch series, boosting the latter score to 627 with handicap. Smith got into the act with a 246 handicap game. In team scoring the Peglers posted a 911 scratch game and 1073 handicap game for tops of the season and the night's high scratch series of 2356. The Hobslurps had a 2863 handicap series.

Schierbaum climbed to the top of the Big Five average list with 175. Others were Koons, Peglers, 170; Tiller, 66s, 162; Keller, Hobslurps, 160; and Peckman, Peglers, 159.

League standing follows:

| Team         | W  | L  |
|--------------|----|----|
| Peglers      | 28 | 4  |
| Hobslurps    | 22 | 10 |
| Easy Aces    | 16 | 16 |
| No Pins      | 13 | 19 |
| Pin Wobblers | 13 | 19 |
| Stinkers     | 12 | 20 |
| 66s          | 11 | 17 |
| Cut Ups      | 9  | 19 |

—2674; to 759, 830, 846—2535 for the radio pinnen.

Jack Spears rolled a 180, 162, 222—564 to lead the victors. Ernie Cobble was next with 168, 198, 170—536; then came Joe Pryson 172, 169, 157—498; Roy Roberts 162, 146, 184—492; and Hummel, substitute for Len Hart, 157, 161, 166—484.

**A STRONG CONTENDER** for top honors in the regular 1952 Y-12 fishing contest (not to be confused with the recent fishing rodeo) is this whopper of a large mouth bass caught by Lloyd B. Morrow, Uranium Processing, in the Little Emery River. The 1952 Y-12 Fishing Contest is open until midnight, December 31, with all entries required to be filed at the Recreation Office not later than January 15, 1953.

## Bumpers Barge To Tie For B Loop Lead

The Bumpers picked up the extra point they needed last week to climb into a tie with the Rebels for first place in the B League of plant keglers. The Bumpers bumped the Bums for a four point whitewash win while the Rebs could only nip the Wolves for three points. In other loop matches last Thursday the Rippers stung the Wasps and the Bldg. 9211 keglers slapped the Swingsters, both by four points; the Cubs clawed the All Stars and the Has Beens trimmed the Tigers, each by three.

Jack Spears of the Rebels hogged most of the individual scoring honors with a 230 scratch game, boosted to 247 with handicap, and a 608 scratch series. Schierbaum, of the Bumpers, had a 666 handicap series for best of the night.

The Rebels likewise took three of the top team scoring-honor spots with a 901 scratch game, increased to 1032 with handicap, and a 2932 handicap series. The 2493 scratch series rolled by the Bumpers got them into the scoring tops.

Len Hart, of the Rippers, continued on top of the Big Five averages with 192. Spears was next with 176. Then came Joe Pryson, Wolves, 176; Ernie Cobble, Bumpers, 173; and Fred Kappelman, All Stars, 172.

Leaflet standing follows:

| Team       | W  | L  |
|------------|----|----|
| Rebels     | 29 | 11 |
| Bumpers    | 29 | 11 |
| Cubs       | 23 | 17 |
| All Stars  | 22 | 18 |
| Rippers    | 22 | 18 |
| Tigers     | 20 | 20 |
| Wasps      | 19 | 21 |
| Bums       | 18 | 22 |
| Wolves     | 18 | 22 |
| Bldg. 9211 | 18 | 22 |
| Has Beens  | 17 | 23 |
| Swingsters | 5  | 35 |

## ELECTION POSTPONES D LEAGUE SCHEDULE

Bowlers in the D League last week moved back the circuit's schedule for one week and cancelled the alley activities set for Tuesday night, November 4. It seems that there was an election held that night to select a president of the United States and the plant league pinnen decided they ought to have a part in the voting in preference to bowling.

# Y-12 Volleyball Season Closed

Plant To Enter Team In Oak Ridge League

Their interest whetted by the successful plant season just closed, Y-12 volleyballers now are looking forward to the opening of the Oak Ridge City League within the next week or two and a continuance of the popular sport. The plant circuit wound up its five-week season on Monday night, November 4, with the Fog Heads capturing the championship and all players exhibiting keen interest in the game that was revived this year after a lapse of several seasons.

The plant will have a sponsored varsity team in the Oak Ridge City League when it opens. The Y-12 team will be selected from among the leading players on the six plant teams and an announcement will be made as soon as possible on the organization of the team.

**Fog Heads Finally Lose**

The Fog Heads' hopes of whitewashing all of their opponents in the league were shattered on the final night of play when the Uranium Control Junior Varsity sextet took one game from the champions. The UCJV squad lost two games but took pride in handing the Firemen of Capt. Emmett Moore their first setback of the season.

As league winners the Fog Heads amassed a total of 14 winning points with only one lost and deserve high praise for their consistent winning ways.

With a record of nine wins and six losses, the Duds team, managed by Bill Lowry, took the second place honors in the league. To clinch this position they took three points from the Engineers with winning games of 15-6 and 15-5.

**Short Circuits Snag Third**

The third rung was filled by the Short Circuits who won three points from the Bldg. 9212 club on the last night of play. Playing up and down ball Manager Joe Holwich's team came from fifth place in the standings to tie down the third slot.

The final standing of the league follows:

| Team           | W  | L  |
|----------------|----|----|
| Fog Heads      | 14 | 1  |
| Duds           | 9  | 6  |
| Short Circuits | 8  | 7  |
| USJV           | 7  | 8  |
| Engineers      | 7  | 8  |
| Bldg. 9212     | 0  | 15 |

## Controllers Repulse Threat By Kemps

Posting two seasonal high team scores and another pair for one night, the Controllers repulsed the threat of the Kemps in the W League of plant women bowlers last week. The Controllers took three games from their opponents and increased their lead to five points in the standings. The Gutter Cats treed the Alley Cats for three games and tied the Kemps for second place and in other engagements the Mix Ups mauled the Strickettes and the Curvettes conked the Cracker Jax, each by two games out of three.

Junita Kirwan, of the Controllers, monopolized most of the individual scoring of the night. Her 510 scratch series was tops for the season and she also had a 181 scratch game and 609 handicap series. Joan Sharp, a teammate, had a 224 handicap game. The Controllers swept the board in team scoring with 729, 964, 2124 and 2836, the latter two figures being high for the season.

Mrs. Kirwan upped her average from 153 to 155 to lead the Big Five of the loop. Others in the circle were Mavis Koons, Kemps, 144; Ann Weissinger, Gutter Cats, 130; Doris Moore, Controllers, 131;

# One Team Needed To Complete Y-12 Plant Cage League

Varsity Squads Show Good Form; City Plans Expected This Week

Two more basketball squads were listed as entrants in the Y-12 Plant Basketball League last week, bringing the total to five lined up and one needed before the circuit can formulate plans to swing into action. The latest outfits to join up are the Guirds and the Rough House Five. Previously announced teams ready for action were Bldg. 9212, Engineers and Duds.

The Recreation Office is hopeful that the sixth team will be forthcoming some time this week as several groups and individuals have expressed interest in playing in the league this season.

Meanwhile, the two varsity squads of men and women are rounding into shape with frequent drills. Plans for an Oak Ridge City League are expected to be formulated at a meeting scheduled at a meeting scheduled for Monday night of this week.

Because many Y-12ers who want to play plant league or varsity basketball may not know just how to go about getting their names in the pot, the Recreation Office, North Portal, telephone 7753, is ready and eager to help out. A telephone call or visit will result in the services of the Recreation Office being pressed into immediate action to put the player in touch with a plant league manager or a varsity squad coach. Previous experience is a minor factor in plant league play, as this circuit is organized primarily for the entertainment and recreation of all employees in the plant area.

Gymnasium space is available for plant league squads on Monday, Thursday and Friday nights and reservations must be made through the Recreation Office—all on a first come and first served basis.

Candidates for the Y-12 Cardinals and Y-12 Robins, the men's and women's varsity squads last week were turning from mere physical conditioning to the work of running and setting up scoring plays. Both squads are growing stronger with each practice session.

The Cards, under the capable guidance of John Shugart, are beginning to show promise that was not apparent during early days of practice. As yet, the coach-manager has not committed himself as to the strength of his squad but visitors to the workouts have predicted that the wearers of the red and white will give all comers a tough battle.

The coachless Robins who are being led along the training path by a Recreation Office representative also are showing good in practice, especially some of the newcomers. However, more squad members are needed and as every position on the team is wide open at present all Y-12 women who want to play the game are urged to report for the next practice session with assurance that they will receive a warm welcome.

Here are the practice sessions for both squads for the immediate future:

Wednesday, November 12, Jefferson Junior High School, 7:30 p. m., women, 9 p. m., 17. O. Monday, November 17, Oak Ridge High School, 6 p. m., both men and women.

and Agnes Tiller, Controllers, 126.

| Team        | W  | L  |
|-------------|----|----|
| Controllers | 22 | 5  |
| Kemps       | 17 | 10 |
| Gutter Cats | 17 | 10 |
| Mix Ups     | 15 | 12 |
| Strickettes | 11 | 16 |
| Curvettes   | 10 | 17 |
| Cracker Jax | 10 | 17 |
| Curvettes   | 6  | 21 |
| Alley Cats  |    |    |

| 2002         | 4.2             | 13         | 15               |
| 2005         | 5.0             | 14         | 7                |
| 2140         | 5.2             | 15         | 10               |
| 2096         | 6.6             | 16         | 14               |

Group absentee percentage was 2.5 per cent, .4 per cent lower than the preceding week.

The plant average for the week ending November 2 was 2.4 per cent, .1 per cent lower than the preceding week.

## Y-12ers Get 103 Per Cent Of Community Chest Goal

A few delayed contributions to the Oak Ridge Community Chest 1952 fund campaign trickling in last week brought the Y-12 total up to \$9,315.23, it was announced last Friday. This sum represents 103 per cent of the assigned quota of \$9,000.

The Y-12 plant, for the fifth straight year, led its group in Oak Ridge in meeting and exceeding its goal. In less than six working days generous Y-12ers had over-subscribed their quota.

## Two Y-12ers Are Elected By Ridge Safety Council

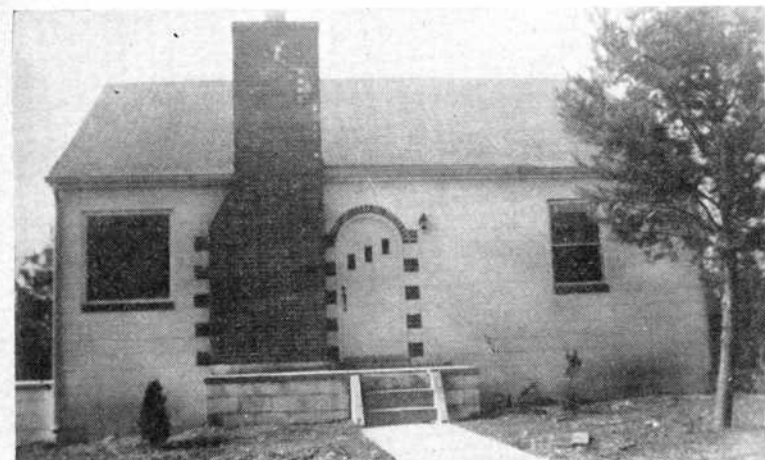

Paul C. Ziemke, safety engineer in the Y-12 Safety Department, was elevated from vice chairman to chairman of the Oak Ridge Safety Council at a recent meeting. Another Y-12er, S. C. Simmons, was made chairman of the school and child section of the council. Ziemke succeeded Les Berger as chairman of the group.

Shops, another Powell resident; G. W. Carter, Maintenance Shops; and Sam Cowden, Buildings and Grounds, who have located in the Karns area of Knox County; and many others.

## Carbide Accountants To Aid Entertainment Of Chapter

Carbide employees and other Oak Ridgers who are members of the Knoxville Chapter of the National Association of Cost Accountants will be hosts at the first meeting of the body in Oak Ridge set for next Tuesday night, November 18. The meeting will be held in the Starlight Room of the Oak Terrace with a dinner at 6:30 o'clock, followed by the business meeting at 8 o'clock. J. D. Bowers, Jr., of Y-12, is among the Carbide members of the group.

W. M. Files, assistant comptroller of the Newport News, Va., Shipbuilding and Drydock Co., will speak on "Production and Accounting Controls Peculiar to Ship Construction." Following the talk a movie will be shown of the S.S. United States, the largest ship ever built in this country.

THIS NEAT LITTLE HOME HAS MORE THAN THE ordinary sentimental value to W. M. Welch, of Product Processing. He and his father did most of the actual construction work on the house on Ridgeview Road, Knoxville. The home was completed about a year ago.

## Y-12ers Build Homes Of Own; Do Most Work

Continued from Page 1

years in Y-12 and began to bear fruit in 1948 when Donahue started construction on his home on Central Ave. Pike a short distance south of Emory Road. Jenkins began construction on his home the following year on the same highway just north of Emory Road and about half a mile from the Donahue property.

The two Y-12ers required from one to two years each to finish their homes—working on them as they did on holidays, nights, vacations, days off and in other spare time. By giving their personal attention to the construction work each has been able to be absolutely certain of the quality of the material and type of work done—lending even more satisfaction to the finished product.

### Valued At \$15,000, \$11,000

Donahue drew his own plans for the six-room house with garage, breezeway and basement he erected. It is built of concrete block and brick with a trim of Tennessee marble. In the rear of the approximately one and one-quarter acre lot are chicken houses and other outbuildings for rural purposes. Donahue says that he values his home at about \$15,000, based on the market replacement price at this time.

Jenkins obtained plans for his five-room house from a firm specializing in plans for small homes. The Jenkins home also has a garage and full basement and is trimmed with asbestos shingles. His home is on a 48-acre tract of land that the Jenkins family shares with some of Mrs. Jenkins' relatives. Jenkins values his home at about \$11,000, based on the current market replacement price.

### Mr. Mash Enterprise

The enterprise of these two Y-12ers in practically single-handedly building their own homes has been matched by several others who have varying degrees of help or assistance in constructing houses convenient to Oak Ridge. Among them are W. M. Welch, of Product Processing; who with his father erected a neat little home in Knoxville; Charles McAmis, of Maintenance

THAT'S WHERE THE TALL corn grows—and it isn't I-o-way, either. It is right over in Beaver Valley, near Byington, and the proud producer is H. J. (Hank) Buttram, of the Materials Chemistry Division. This crop was raised despite the drouth and without irrigation and the height of the corn can be measured by comparing it to Hank, Jr., the tallest boy in the foreground, who is six feet tall. The other youth is David Nichols, son of Dr. Ambrose Nichols, also of Materials Chemistry. In a sort of Paul Bunyan manner, elder Hank modestly declares that with a break in rainfall and possibly some irrigation he will have 20-foot corn next year.

## Rides Wanted And Offered

**Ride Wanted**—From Broadway and Fairmount Boulevard section of Knoxville, 3 p. m. to 11 p. m. shift. Harry Tobe, home telephone 4-3668, Knoxville.

**Ride Wanted Or Want To Participate In Car Pool**—From Washington Pike and Whittle Springs Road, straight day. J. E. Bennett, plant telephone 7421.

**Riders Wanted**—From Hillside Road and Hamilton Circle and out Pennsylvania Ave., Oak Ridge, to West Portal, straight day. H. Ross, plant telephone 7639, home telephone 5-3189.

**Ride Wanted**—From East Drive, Oak Ridge, straight day. Nell Cromer, plant telephone 7226, home telephone 5-5928.

**Ride Wanted**—From Wells St., North Knoxville, straight day. Dorothy Adkison, plant telephone 7103, home telephone 3-3060, Knoxville.

## Plant Keglerettes Get Tie For First

The hottest outfit in the league for the past several weeks, the Y-12 women's varsity bowling team drove to a tie for first place in the Oak Ridge City League last Thursday with a smashing four point whitewash victory over the Oak Ridge Hospital lassies. The Y-12ers easily took the first two games but barely eked out a two pin triumph in the finale to score the sweep with a line score of 717, 736, 652—2105; to 636, 638, 650—1924 for the opposition.

The victory came while the Ricker outfit was winning only three points from Norris Creamery and put the Y-12ers in a deadlock with the Ricker keglerettes.

Mary Ballard coupled games of 157, 172 and 142 for a 471 series to top the victors in individual scoring. Then came Ruby O'Kain 144, 155, 140—439; Betty Whitehorn 146, 157, 125—428; Mavis Koons 154, 136, 125—415; and Juanita Kirwan 116, 116, 120—352.

## Carbide Wives Set Monthly Card Party For Next Week

The monthly card party and meeting of the Carbide Wives will be held at 7:30 o'clock next Wednesday night in the East Lounge of the Ridge Recreation Hall. All wives of Y-12ers are cordially invited to attend. Hostesses for the affair will be Mesdames Fred Johnson, Carl Jenkins, Jane Herring, H. F. Aiken, Fred W. Harmon and M. J. Gaitanis. Bridge and canasta will be played at the party.

EMPLOYEES AND SUPERVISION OF THE MACHINE Shop in Bldg. 9766 are shown above at the group's annual picnic held recently at Grove Center. A total of 56 persons attended the affair. In the picture at left are shown, front row from left, Mrs. Frank Owens, Catherine Orange, Mrs. Harley Orange and Mrs. J. W. Young. In rear are Mr. and Mrs. Albert Johnson, J. W. Young, A. H. Coling, Paul Weigelt, H. D. Byerley, Dorothy Weigelt, J. J. Cox, Jim Byerley and Mrs. Byerley, Boyd Hobby, Dorothy Hobby, J. H. Byrd and Mrs. Byrd, Mrs. Perry, Gordon, Billie and Debra Butters, Bill Barker, Jr., and Linda Barker.

In the picture at right in front are Mrs. A. H. Coling, Mrs. W. J. Barker, Linda Barker, Carol Hobby, Mrs. Frank Owens, Mrs. Frank Orange and Mrs. J. W. Young. In back are Harley Orange, Bill Barker, T. A. Keith, A. H. Coling, Frank Owens, J. A. Parson, Steven Parson, Boyd Hobby, Mrs. Parson, Mrs. Perry and Mrs. J. H. Byrd. There are some unavoidable duplications in the pictures—but The Bulletin thanks the department for submitting them for publication. Any other department with pictures of group outings or parties of any kind are urged to send them in to The Bulletin, North Portal.
